QUALITY BUSINESS SOLUTIONS

ECONOMICAL. ECOLOGICAL. ECOSYS TECHNOLOGY.

The **ECOSYS P2135dn** is a cost effective, highly productive black & white network printing solution for small workgroups. Designed for heavy output in a small footprint, it delivers exceptionally crisp quality results from first page to last, at impressive speeds up to 37 pages per minute. Standard print from USB capability allows on-the-go printing, while optional wireless printing solutions help keep your document imaging moving without tying you to the device. Cost-conscious users will appreciate the added benefit of ECOSYS long life consumables, which lowers operating costs, minimizes downtime and maximizes efficiency.

› Fast Output Speed of 37 Pages per Minute
› Crisp Black & White Prints

ECOSYS TECHNOLOGY

KYOCERA's objective is to manufacture superior products with a low Total Cost of Ownership (TCO) and minimize the impact on the environment. ECOSYS printers incorporate a patented long life drum which is separate from the toner container, eliminating drum replacement when toner is depleted – and reducing landfill waste. ECOSYS printers provide a printing solution that incorporates long life consumables and one of the lowest costs per print. The operating costs of traditional cartridge-based printers can easily exceed many times the original purchase price during the life of the product.

HARNESS THE POWER OF YOUR ECOSYS PRINTER WITH CUSTOMIZED BUSINESS APPLICATIONS
